

REMARKS

In the Title:

Applicant has changed the title to read --METHOD FOR CONTROLLING TRANSMISSION CAPACITY AND MOBILE COMMUNICATION SYSTEM--. This title is consistent with the application as originally filed.

Status of Claims:

Claims 1-8 are present for examination.

Changes to Claims:

The instant amendment adopts the suggestions of the examiner as stated in Par. 3 of the office action. These changes to the claims are thus deemed to remove the basis of the examiner's objections to the claims.

Further, applicant has made some slight additional modifications to the claims for clarity. In particular the phrase "'of said wired line" has been added in connection with the "permissible transmission capacity" so as to clearly indicate that this phrase ("the permissible transmission capacity") refers to the wired line capacity and not the wireless link capacity. It is submitted that this clarification is wholly consistent with the examiner's reasons for allowance and does not present any new issues to be considered by the examiner.

Conclusions:

If the examiner should have any questions he may feel free to contact the undersigned at 310-975-7895.

It is submitted that the application is now in condition for allowance and an early indication of same is earnestly solicited.

The Commissioner is hereby authorized to charge any additional fees which may be required regarding this application under 37 C.F.R. §§ 1.16-1.17, or credit any overpayment, to Deposit Account No. 19-0741. Should no proper payment be enclosed herewith, as by a check being in the wrong amount, unsigned, post-dated, otherwise improper or informal or even entirely missing, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 19-0741.

If any extensions of time are needed for timely acceptance of papers submitted herewith, Applicant hereby petitions for such extension under 37 C.F.R. §1.136 and authorizes payment of any such extensions fees to Deposit Account No. 19-0741.

Respectfully submitted,
